

HiP 2BGreen

Green humour for conferences & events

HiP'S STORY

HiP has worked out how sustainability can be cool and look hot!

He loves *funking up* the green message in order to win mass appeal. He is constantly flaunting his natural 'X' factor for the cause

HiP's wardrobe is an eclectic mash-up of eco-chic fabrics, funky opp-shop and high tech portable renewable energy devices.

HiP'S VIBE

HiP is warm, lovable and witty. He loves to inspire others to ride the green wave with him. He takes himself very seriously whilst letting you in on the joke that he can't be serious.

..the twist is that he *does* know his stuff.
